RE: Proposals for Phase II of the RI/FS for
the American Chemical Services NPL Site.

Dear Mr. Perellis:

As you may be aware, Phase I of the Remedial Investigation (RI) for the ACS site is nearing completion. Accordingly, now is an appropriate time to begin the scoping process for the second phase of the RI. As an enclosure to this letter, I have included a listing of proposals which are believed necessary to proceed with the second phase of the RI. These proposals are being forwarded to you now so that the PRP Technical Committee and Warzyn Engineering Inc., will have the opportunity to review the proposals and incorporate them into Phase II of the RI/FS Work Plan.

A Phase II scoping meeting has been scheduled for October 24, 1989, at 10:00 AM at 230 South Dearborn, in the 11th floor conference room. Please forward the enclosed proposals to appropriate members of the PRP Technical Committee so that they will have an opportunity to review them prior to the meeting of the 24th.

If you have any questions or need any assistance concerning the proposals or the logistics of the meeting, please contact me at (312) 886-5116.

Sincerely,

Robert E. Swale
Remedial Project Manager
